# E-Motion Picture Magic

**Birgit Wolz, Ph.D.**

Have you ever wished for more perspective on your life? Have you ever wished you could take a couple of steps back from your problems so you might feel less insecure, worried, or discontented. Let healing begin with a shift in perspective that can come from the use of film, viewed with conscious awareness.

Like no other medium before it, the popular movie presents the potential of a new power for illuminating the depth of human experience. *E-Motion Picture Magic* employs that power as a tool to increase consciousness.
